<i>A simple case for torture</i>	Martha Rosler	USA	1983	60mins	Rosler identifies the totalitarian implications of an argument for torture, under certain circumstances, as it appears as a guest editorial in Newsweek magazine in 1982. Her critique is presented as a voiceover and a dizzying assemblage of radio and print media--articles on subjects ranging from human rights to unemployment and global economics. Implicating the U.S. government and American businesses for supporting regimes that systematically use torture, she indicts the American press for its role as an agent of disinformation through selective coverage and its use of language, and for implicitly legitimizing points of view that support torture.
<i>A Tale Part Told</i>	Sarah Turner	UK	1991	04mins	'The film opens directly and freshly with a screen journey which is also a kinetic light sculpture holding its rotation steadily before our eyes. Many associations emerge as we hear the tale in relation to this image and its shifting background. . . including a bicycle being ridden by the filmmaker, spools and spokes, a feeling of a metal insect or iridescent whirring dragonfly picking up the passing colours. As the speaker rides her story, she stays in balance. There is a still centre to the radial motion against linear road or landscape. A feeling of cyclical storytelling comes with the account of her own life and giving birth to a 'computer literate and perfectly bilingual' baby daughter. We are led to respond to her not being guaranteed to stay in control. She had this footless being pulled out of her by Caesarian section. Again multiple strands are knotted in this fortune wheel: gain on the swings, lose on roundabouts, with no 'perfection' in relations with other beings on the round of merry, or social, or just plain recurring intercourse.'- Sandra Lahire
<i>A tribute to Black Women</i>	A Carney, B Phillips	UK	1986	22mins	How many famous Black women can you name who aren't either sports women or entertainers'. Mostly the folks of Liverpool draw a blank - making the point that too little is known or taught about Black women.

<i>Apeshit</i>	Leah Gilliam	USA	1999	07mins	Employing footage from an obscure 8mm film trailer for Battle for the Planet of the Apes to highlight the unstable relationship between the real, historical past and the distant, imaginary future, this project revolves around a central question: Is alien-ness indeed the metaphor for the 20th Century as power relationships have been embodied within our subconscious? Is there a relationship between these forgotten formats and the discontinued political ideologies that they depict? Transferred from Super-8 and then processed using a combination of high-end digital and vintage analog processing techniques, Apeshit emphasizes the contradictory references found in both the original text and its adaptation. Serving up Battle for the Planet of the Apes as proof, Apeshit puts forth tolerance as an outmoded technology.
